

Rantu Bangal

Full Stack Web Developer

PROFESSIONAL SUMMARY

Dynamic full-stack web developer adept in the MERN stack with expertise in building scalable web applications. Demonstrates exceptional problem-solving skills, attention to detail, and effective communication abilities. Eager to leverage technical proficiency and creativity to drive innovation in full-stack web development projects.

PROJECTS

1. Digital Pay | |

HTML5 | CSS3 | JavaScript | Git | Responsive Web Design

- Led the development of Digital Pay, an online payment website aimed at facilitating customer transactions.
- Implemented user registration and authentication functionalities to ensure secure access.
- Enabled users to send money via UPI and bank transfer, with the ability to add various cards for payment.
- Developed features for displaying user profiles, transactions, and inviting contacts for enhanced user experience.

2. Boat Lifestyle Clone | |

HTML5 | CSS3 | Git | Responsive Web Design | Bootstrap

- Participated in a group effort to clone the BoAt Lifestyle online shopping platform, emphasizing responsive UI and interactive design.
- Implemented a responsive UI design for optimal user experience across devices.
- Developed a user-friendly landing page to facilitate easy navigation and product browsing.
- Incorporated interactive design elements such as animations and transition effects to enhance user engagement.

3. Figma Design Clone | |

HTML5 | CSS3 | Git | Responsive Web Design

- Collaborated on pixel-perfect cloning with responsive UI.
- Developed card and category sections with hover effects.
- Utilized transition/transform properties for interactivity.
- Implemented hover effects using CSS.
- Developed responsive design and hover features.
